NEW!

CERTIFICATE TRACKS OFFERED THROUGH DIGITAL EDUCATION WORKSHOPS

AVAILABLE THIS SEMESTER!

Student Engagement

Promote active learning! This certificate track is intended for faculty and staff interested in increasing student engagement through iLearn. Upon completion, you will earn your Student Engagement Certificate and be able to integrate quality techniques to increase peer-to-peer student interaction within iLearn.

Blended Classroom

Optimize class time! This certificate track is intended for faculty and staff who want to use iLearn to maximize their face-to-face time with students. Upon completion, you will earn your Blended Classroom Certificate and be equipped to use your iLearn site to promote collaborative student work and higher order thinking.

iLearn Level 1

Learn basic tools in iLearn to create a high-quality course! This certificate track is intended for faculty and staff who are new to iLearn. Upon completion, you will earn your iLearn Level 1 Certificate and be proficient in the tools and features of iLearn.

iLearn Level 2

Delve further into iLearn! This certificate track is intended for faculty and staff who already know iLearn basics. Upon completion, you will earn your iLearn Level 2 Certificate and will be equipped to prepare and integrate quality video into your courses and take iLearn to the next level.

E3 – Enhance, Engage, Empower

Understand "the why" when it comes to your iLearn tools! This certificate is earned online and is a continuation of your iLearn education. It is designed for beginning iLearn users and incorporates online learning best practices. Upon completion, you will earn your E3 Certificate. This certificate must be updated every two years due to the changing nature of digital education. By the end of these sessions, you will be ready to design your iLearn site.
